

**Innovative managed  
cleaning services  
provided nationwide**

# Integrity

Premises are crucial in the successful day to day running of any business or public service and create the right environment for staff, clients and visitors alike.

The high cleaning standards that Indepth provide, delivered by the right people, can lead to a happier, healthier and more productive workforce and can reflect positively on your brand.

At Indepth we manage your cleaning services in a moral, honest and professional way to achieve the standards and results you and your stakeholders expect and can rely on.

“**Innovative**  
managed services  
provided nationwide.”

# National communication

We operate our business on a national scale to provide a high calibre cleaning service to multi and single site operations in all areas of the United Kingdom.

To keep overheads to a minimum, we conduct our office-based operation from a single central site, our Indepth Hub, and utilise bespoke technology and software to communicate, control, record and organise client contracts.

This unique service delivery ensures that the day to day operation is managed efficiently and ensures the seamless mobilisation of new contracts.

# Trustworthy

Our clients can feel safe in the knowledge that their facilities and sites are in good hands. Our people are trained to industry accredited standards and we are committed to delivering a continuous programme of relevant training.

We follow a stringent Right to Work vetting process to meet the legal employment requirements, giving our clients peace of mind that we have the right people for the job.

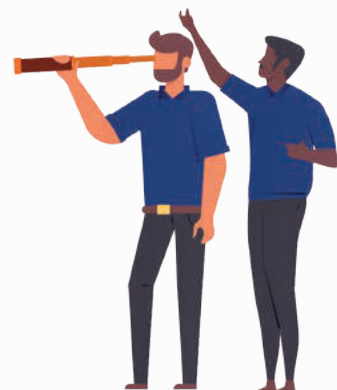

Our transparent client portal and auditing process, along with our time and attendance tracking system means that you can evaluate standards and attendance easily and have monthly site management visibility.

# Open to innovation

We have our finger on the pulse with regards to cleaning chemicals, machinery and methodology and ensure we have a good understanding of the current and future trends and innovation in the industry.

We explore how new products will impact on the productivity, bottom line and the environment in relation to client contracts. Where possible, we demonstrate products and their impact to our clients in regard to their contract/s with a view to improvement and efficiency.

# United: One team

At Indepth we work together with our colleagues, our clients and our partners to ensure a consistent service delivery that works for everyone. We recognise that every individual plays an important role in our organisation and therefore we are committed to investing in our people through training and performance recognition at all levels to unlock their potential.

We celebrate the achievements of our staff through annual staff awards and a quarterly Operative reward scheme, Inspiration Awards, recognising those who go above and beyond the call of duty.

# Community

We are a national employer providing job opportunities to people within the local communities surrounding our client sites and therefore place a high importance on giving something back.

Each year we ask our employees to nominate a national and a local to head office charity that we can support for the year ahead. Employees are encouraged and supported in their endeavours to give time and generate funds for the charities.

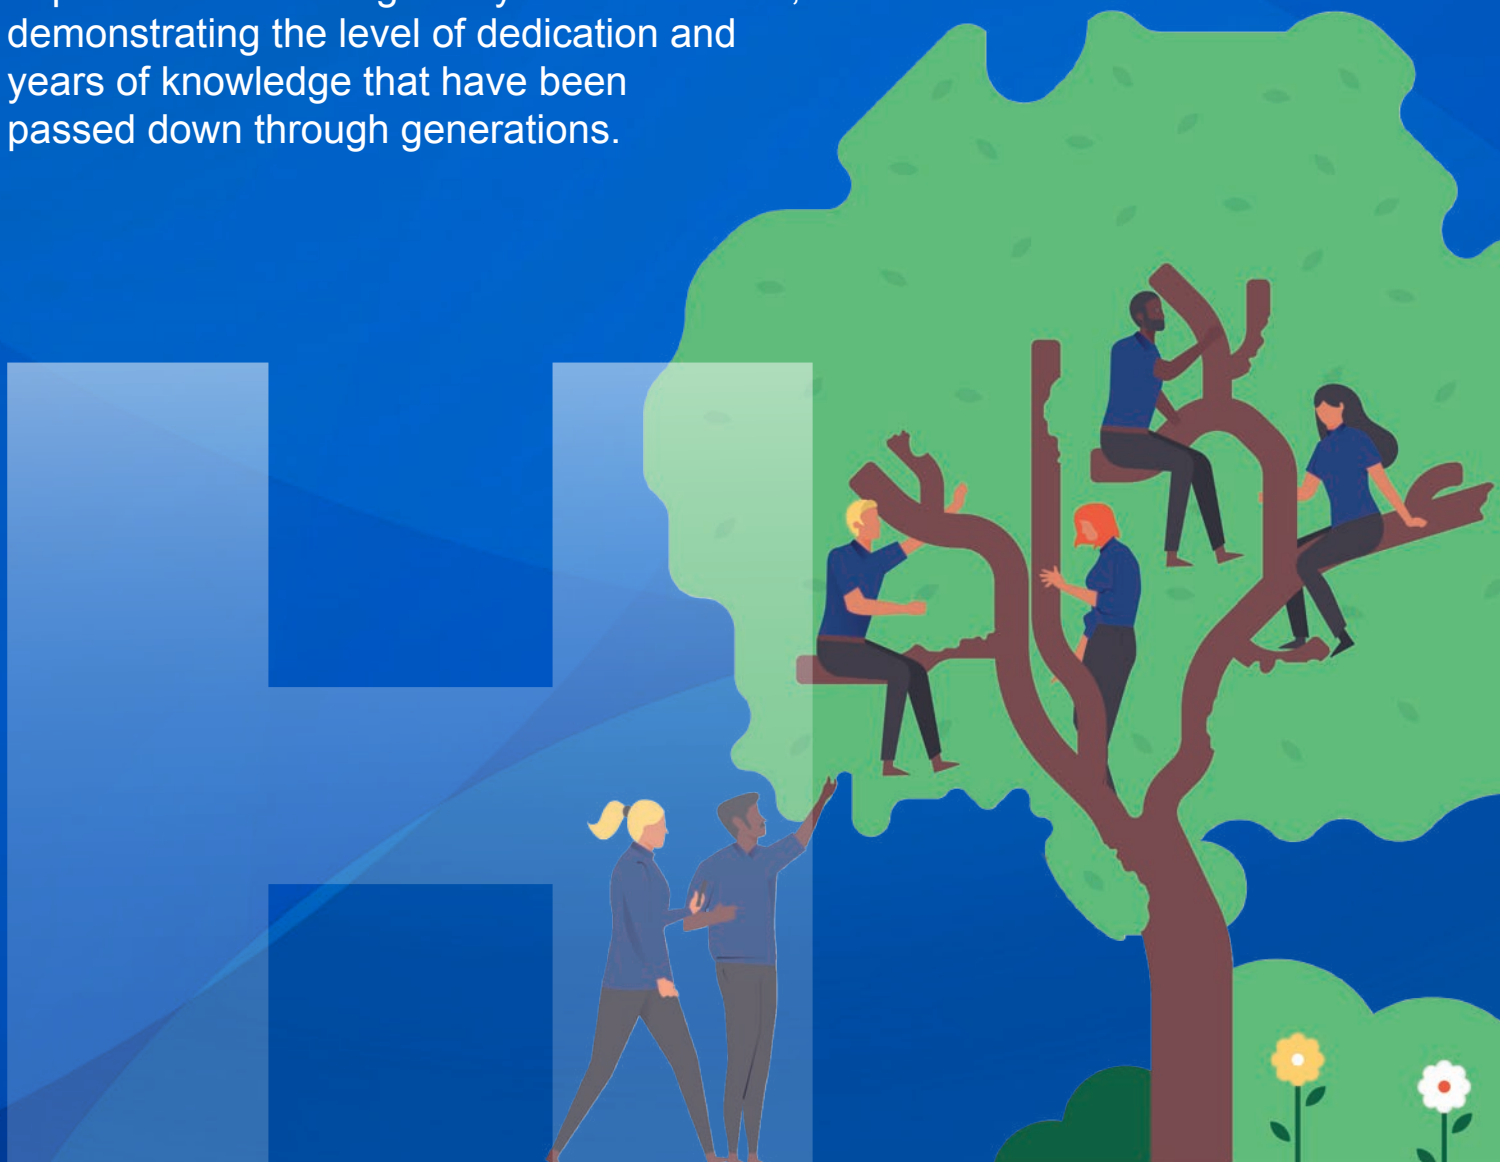

# Heritage

With over 40 years of successfully delivering contract cleaning services up and down the country, we believe we have the experience and expertise to do a great job. We add value to our clients and deliver an exceptional service, and our clients testimonials are proof of that.

Our unique, bespoke IT systems have been developed in-house and continue to evolve to meet the needs of our field staff, our clients and the contracts.

Even after 40 years the business continues to pride itself on being family owned and run, demonstrating the level of dedication and years of knowledge that have been passed down through generations.
