

# HEALTH, SAFETY & ENVIRONMENT TRAINING

# BUILT WITH THE BACKING OF OVER **125 YEARS'** EXPERIENCE IN SUPPORTING BUSINESSES

Our portfolio of training covers the whole workforce so that you maintain a safe and healthy workplace.

- **Quality** – courses endorsed by external industry bodies and pass rates which regularly exceed national averages.
- **Trust** – we were the very first NEBOSH training partner and are the only provider of the IEMA Diploma in the world.
- **Experience** – we deliver more than 10,000 training and consultancy days each year.
- **Flexible** – a range of face-to-face and virtual delivery methods to complement the learning style of your organisation and its individuals.
- **Extensive** – training solutions designed for a single delegate through to company-wide programmes. For professional development or to drive the Health & Safety agenda in your organisation.
- **Impactful** – innovative tools and solutions to ensure effective training.
- **Expertise** – all our trainers are professional consultants with industry recognised qualifications and practical experience.

---

“The Make UK trainers were brilliant. They were very knowledgeable and could keep the delegates listening. Sometimes Health and Safety can be a dry subject but they managed to put it across in an easily understandable and enthusiastic manner, which had a big influence on the outcome.”

HSE Advisor, CANPACK UK Ltd

# DELIVERY METHODS

## **In-Company**

The training course is delivered specifically for a group of people at your company - either face-to-face at a time and place to suit you, or via Virtual Classroom. We'll tailor your course content to your business, bringing it to life.

## **Classroom**

Taught with delegates from other organisations at one of our training centres, this rich learning experience allows you to get away from the distractions of the workplace, learn from your peers and focus on your qualification.

## **Virtual Classroom**

For those who want a classroom-based course without the travel, our virtual classrooms provide an interactive online environment for our training programmes to be delivered at your home or office.

## **Online**

E-learning programmes that can be studied at any time, from anywhere, from any device. This method provides the flexibility for you to study at your own pace and in your own learning style.

## **OnlinePlus +**

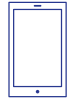

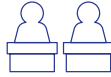

Provides all the features and flexibility of an online course, but with the structured support of that a tutor provides via a series of scheduled webinars.

## **Micro/Mobile Learning**

This informal delivery method allows you to digest bite-size chunks of information from anywhere, at any time, from your smart phone. It's an easy and effective way of fitting training around daily life.

# BESPOKE AND TAILORED PROGRAMMES

As well as our off-the-shelf courses, our team of experts will work with you to develop a bespoke programme that focuses the learning outcomes on your specific requirements, getting right to the heart of your objectives and goals. We'll embed your organisation's values, competencies and working practices with an approach that has great impact and immediate relevance.

Because we offer a variety of face-to-face and virtual delivery methods, we can ensure we match the learning style of your organisation and its individuals. We can even incorporate your company's own Learner Management System if required.

If external recognition is important to you, we thoroughly understand this difficult process and can gain accreditation from bodies such as NEBOSH and IOSH.

## THE BENEFITS

- Cost effective
- Time efficient
- Flexible
- Accessible
- Relevant
- Learner focused
- Adaptable

# HEALTH, SAFETY AND ENVIRONMENTAL SUPPORT

**Our team of health & safety experts can help you understand the legal obligations and responsibilities of your business.**

We understand the risks to your business and help you implement policy, processes and measures to minimise these risks, ensuring your business is in line with industry best practice.

We help your business to perform and grow.
