Plexus

Metal-framed storage has become increasingly popular in workspaces. Our Plexus system has been designed to be as aesthetically pleasing as it is flexible.

Your Workspace - Marketing Manager

Standard Plexus

Far from basic our standard options allow you to create a custom unit to meet your specific needs.

- Four compartment sizes.
- An almost endless range of MFC finishes.
- Different types of wireless locks for your lockers.
- Elements that can be moved around as your needs change.

(See *configure* p.10)

Bespoke Plexus

If you are inspired by something you've seen, tell us, and we can help create it. The opportunities are endless. If you would like to incorporate lighting into your unit, add a TV or whiteboard or need a different size structure; we are here to bring your vision to life.

(See *inspire* p.22)

Customise our Plexus units

Designing Your Plexus Unit

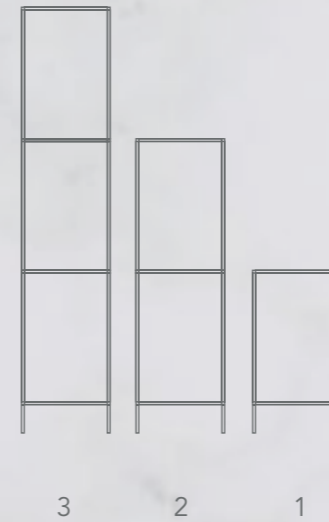

Plexus units are specified by how many columns wide and compartments high they are. Units with multiple columns share single uprights. Each standard unit comes with 100mm legs and adjustable feet.

All standard Plexus units are 400mm deep. We offer two compartment heights – 400mm and 600mm, and two compartment widths – 400mm and 600mm. Although one size is commonly used at a time, the four variations can be combined.

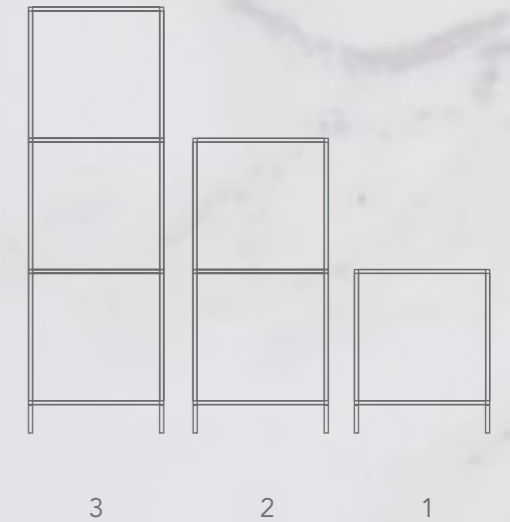

H400 x W400 x D400

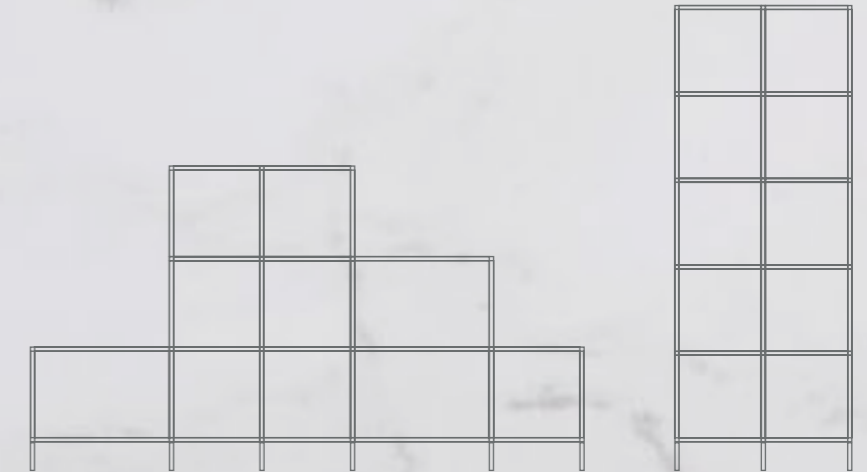

H600 x W400 x D400

H600 x W600 x D400

Configuration Examples

Choosing Your Elements

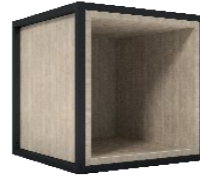

We call our shelves, boxes and planters 'Elements' i.e. the parts that make up the whole structure. Each Element has been designed so that it can be installed, moved and re-installed easily. We provide instructions on how to do this yourself, or our team can return to site and re-configure them as required.

Planter

Glass Shelf

Glass Panel

Back Panel

Planter
Follow the biophilic design trend and add some greenery to your unit.

Glass Panel
Add shimmer with a reflective or coloured glass panel.

Closed Cube
Ideal for keeping your books and documents organised.

Cupboard
Our cupboard elements have a sleek push-to-open mechanism.

Credenza
We offer 100mm legs as standard, but you can also choose to install onto an MFC plinth or credenza unit. All options come with adjustable feet.

Shelf
Our most utilitarian and basic element.

Locker
Secure work or personal items with a range of wireless locking systems (as shown on p.18).

Back Panel
Create a chunky, solid look with our additional décor panels.

Open Cube
Give greater structure to units that divide spaces.

Finishes

Plexus Elements are available in a wide range of MFC finishes, some of which we've curated below. We're happy to help match to your existing or new décor. Please note that finishes may be affected by minimum board quantities (ask us for more details).

Special Finishes

The standard colour for our Plexus frames is black, but we can spray the system to meet any different colour requirements. We are also happy to investigate the construction of Plexus Elements in other materials, such as plywood.

Ask us for more information.

Locks

Our Plexus Locker Element can be customised with a number of different wireless locking mechanisms from key to RFID, as shown below.

Your Vision

At Your Workspace we will work with you to realise your vision. We offer our clients an end-to-end solution, with a single point of contact. With decades of experience in furniture design, manufacturing and installation, we are confident that we can create the right storage solution for your needs.

Having a factory based in the UK allows us a degree of control over production that most other British manufacturers lack. Our strong partnerships with the best global suppliers mean we have the best range of locking options on the market, and access to a huge range of quality materials. We're also able to produce matching office furniture and storage products.
