

Switch & Save with P50 Service-Free Extinguishers

Replacing traditional fire extinguishers with P50 units can offer a number of benefits including huge cost savings.

Why Install Britannia P50 Service-Free Fire Extinguishers?

[P50 Extinguishers](#) can save you money and make a contribution to your green initiatives...

Huge Cost Savings

- No requirement for annual servicing from a trained engineer
- Better coverage than traditional extinguishers - combine multiple units into one P50 unit
- 20 year product life when the P50 unit is refurbished after 10 years
- One-off purchase cost with no further outlay for 10 years - no need to refill after 5 years

10 Year Warranty

- Unique, long-lasting quality construction
- Protected against scratches, denting, abrasion and rust
- 100% non-corrosive
- UV and weatherproof
- Perfect for wipe-down cleaning
- Manufactured to the highest performance standards
- CE marked and Kitemarked to BS EN3 by BS1

Free Installation

- Commissioned and installed free of charge by our BAFE certified Engineers
- Free delivery to your site anywhere in the UK
- Free site survey and recommendations
- Free wall sign and bracket
- Free training for staff included
- Nationwide coverage for this service

Eco Credentials

- No site visits from a servicing engineer reduces the carbon footprint from travel miles
- P50 chemicals last twice as long as traditional steel units
- P50's potential life-span of 20 years is substantially longer than a traditional extinguisher
- Materials used in construction are recyclable
- 100% UK Manufactured

P50 AFFF Foam

Certified for use on Class A and B fires, P50 Foam Extinguishers have also been dielectrically tested for safe use on electrical equipment. They offer an ideal replacement for a standard water and CO2 extinguisher combination.

Manufactured by
Britannia Fire Ltd

EN3
Certified to EN3
App No. EN3 - 7.11/259

P50 ABC Powder

P50 Powder Extinguishers provide an all-round firefighting capability with the ability to tackle Class A, B and C type fires as well as fires involving electrical equipment. Ideal for use in factories, warehouses, construction sites and vehicles.

P50 Wet Chemical

The best choice for commercial kitchens, they are safe for use on deep fat fryers and live electrical equipment.

Traditional Fire Extinguisher 10 year cost for comparison

This example represents the **total cost of one traditional CO2 and one water extinguisher plus servicing** over 10 years. These costs are based on equivalent traditional units when compared to the P50 Foam example overleaf.

Unlike P50 Extinguishers, traditional fire extinguishers usually need to be replaced after 5 years and require annual servicing throughout their lifetime.
